

Spring:IOC AOP

IOC 控制反转：用来解决层层之间 耦合

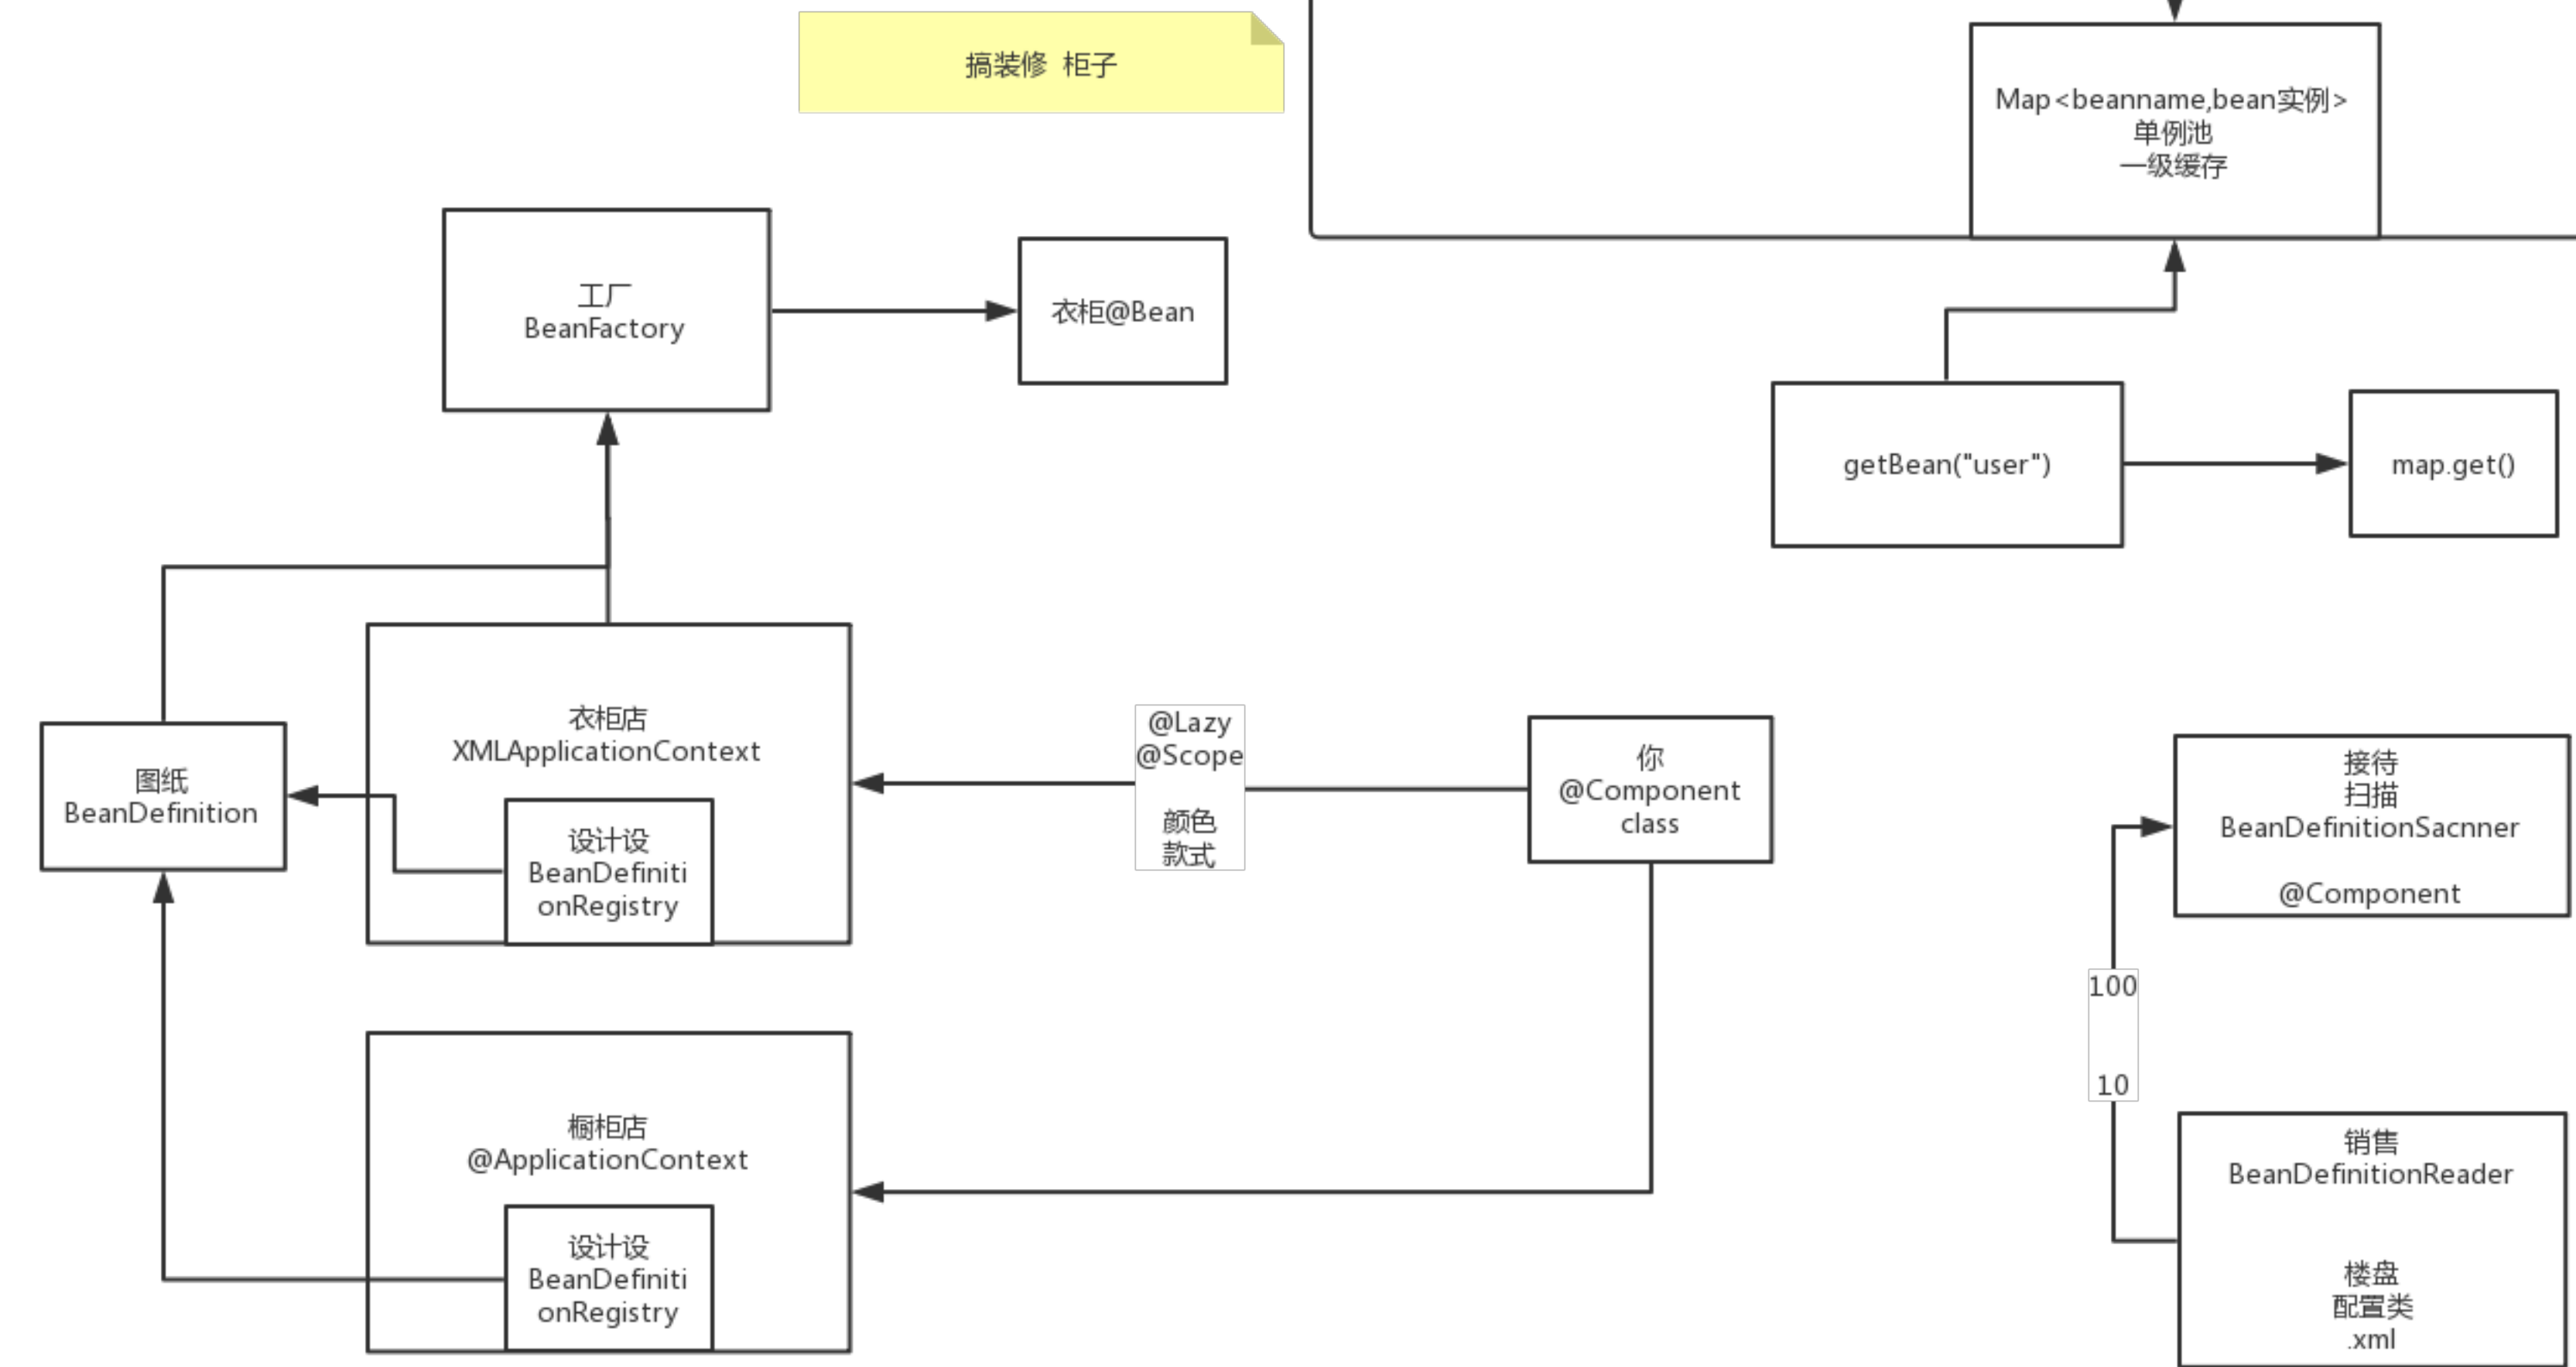

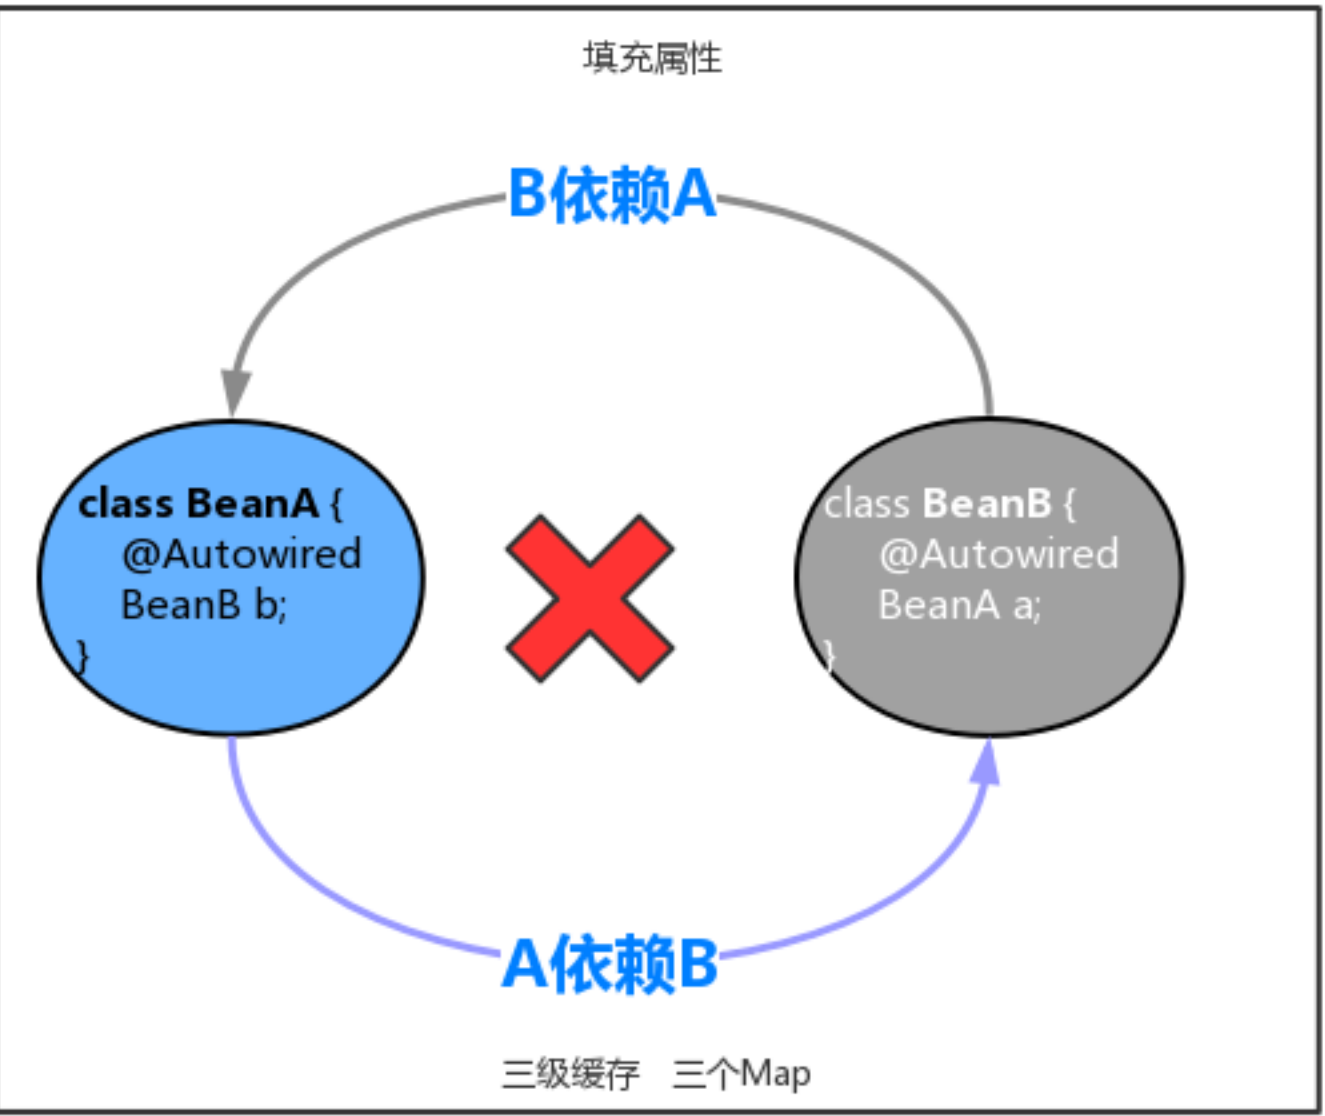

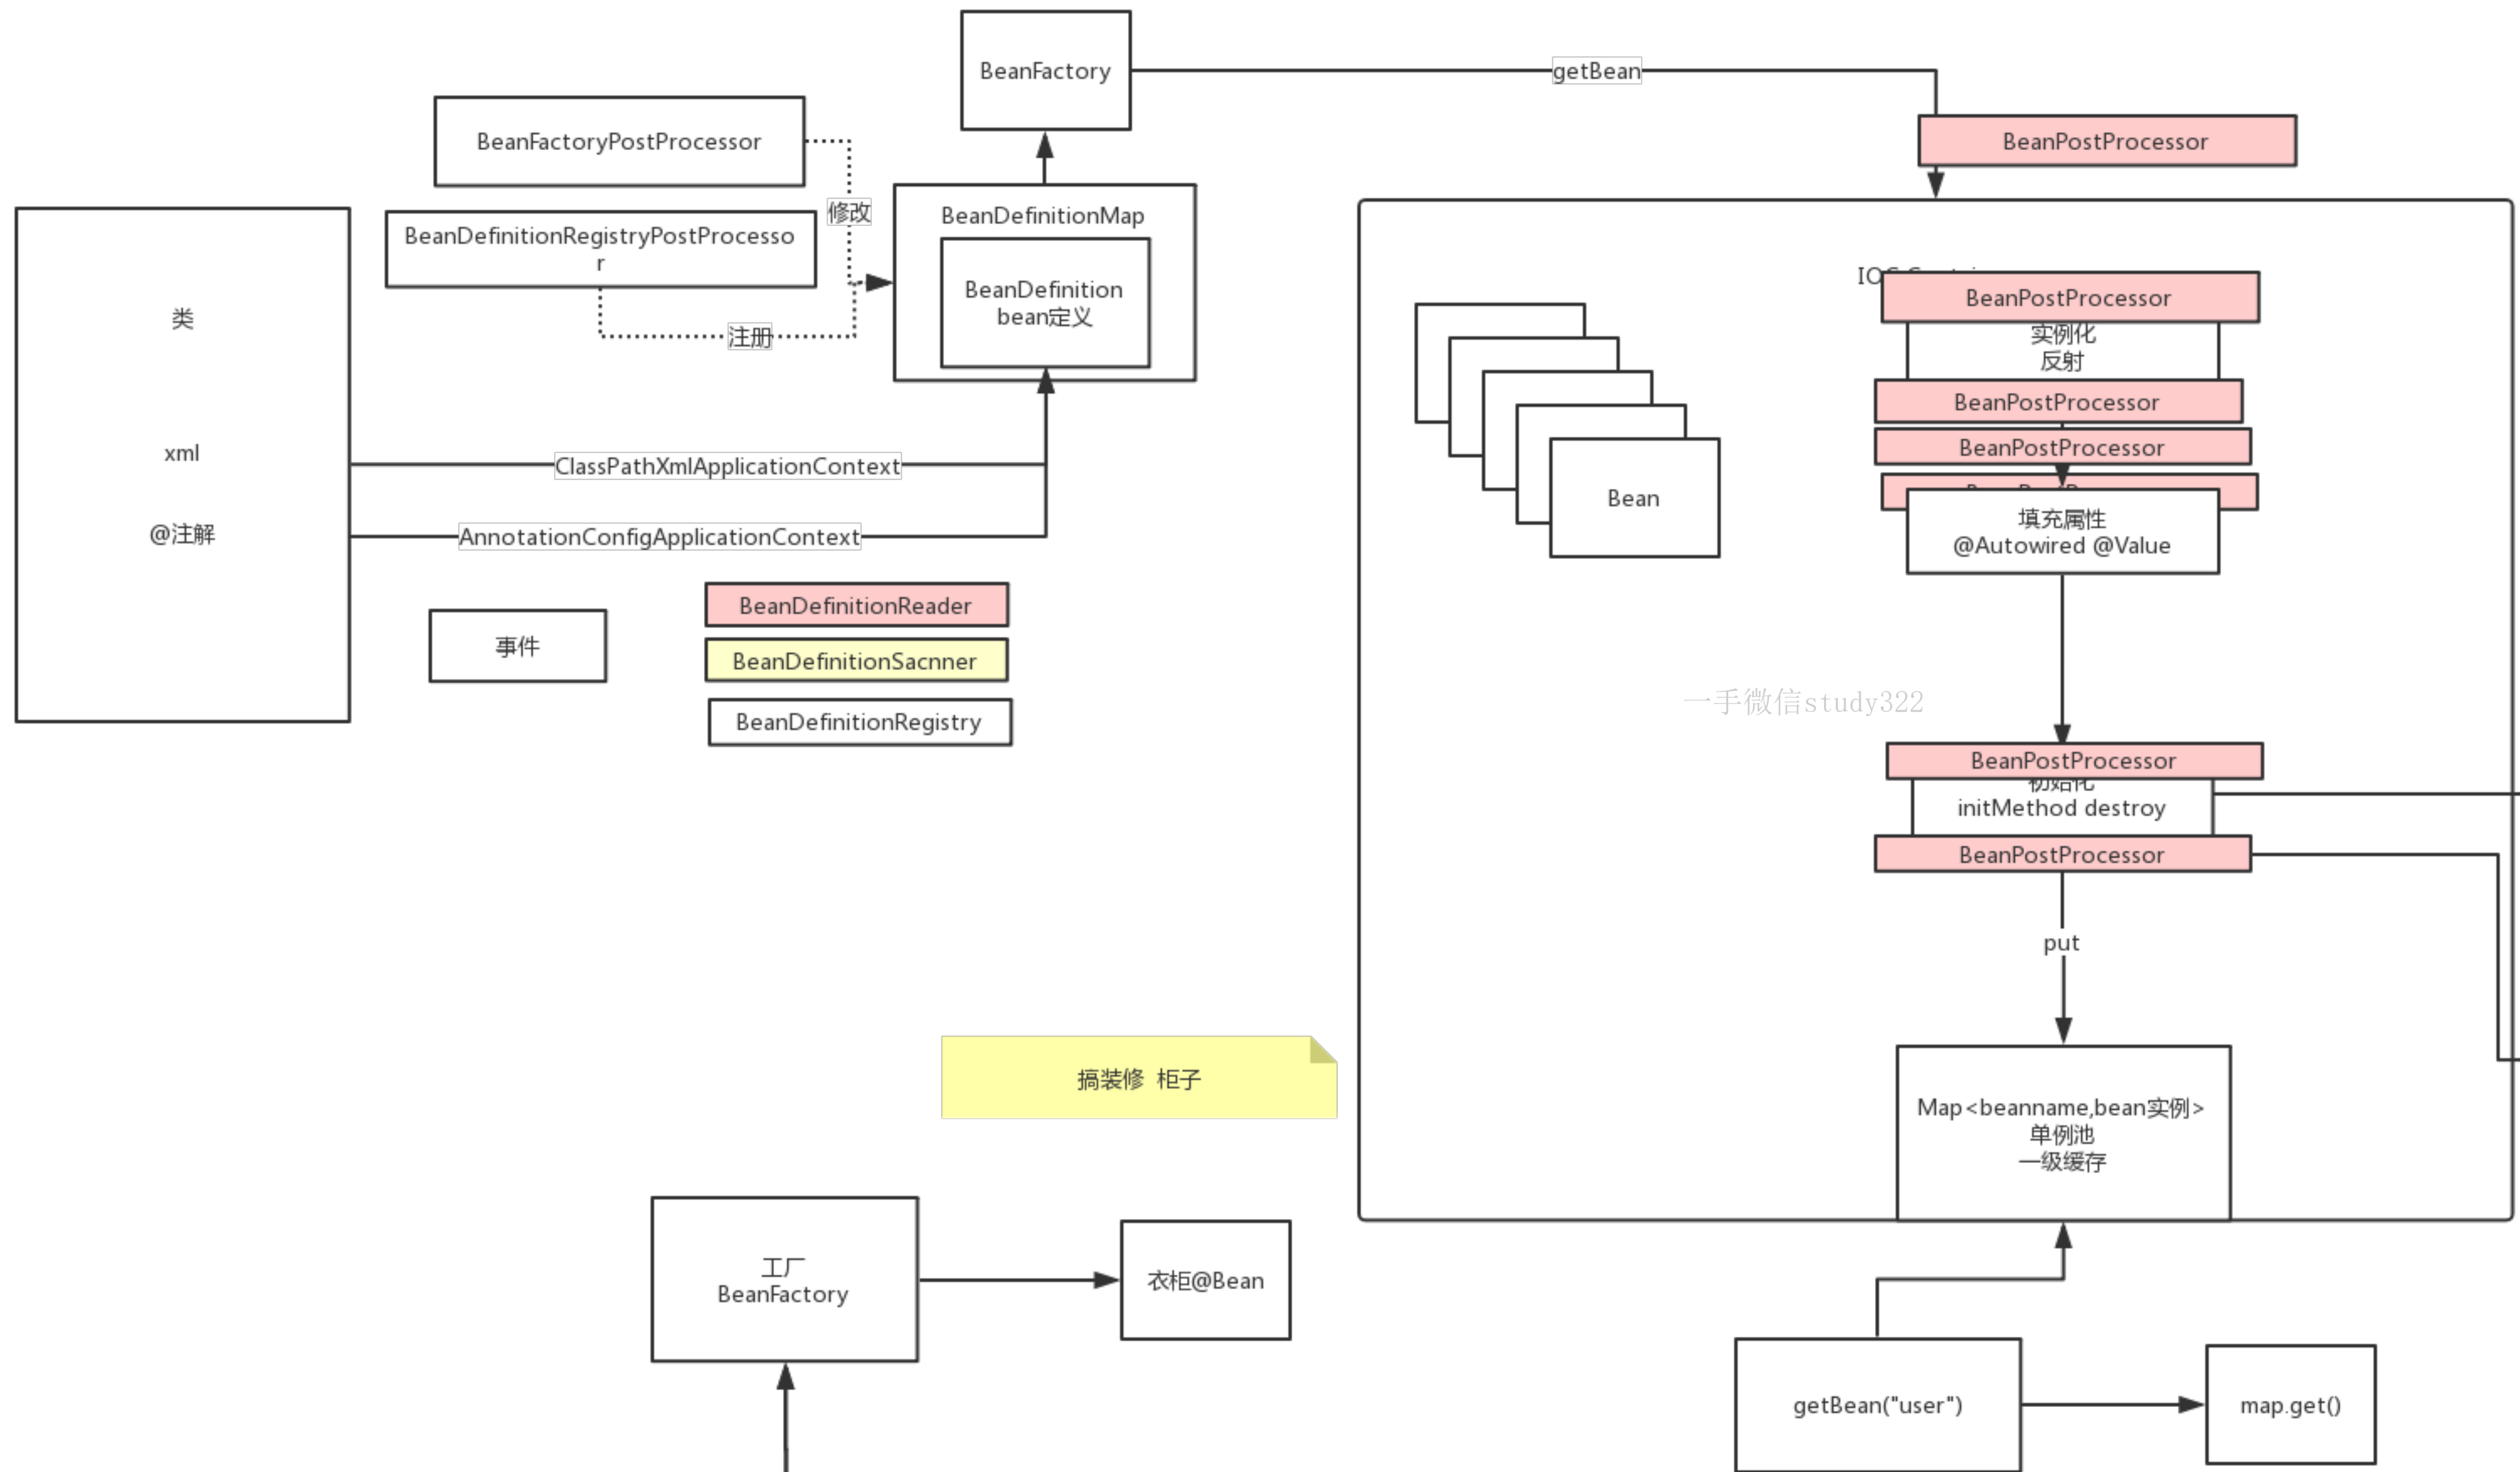

A B
@AutoWired
IB b;

Spring ioc(A ,B)

BeanFactory Spring顶层核心接口,使用了简单工厂模式，负责生产Bean

BeanDefinition Spring顶层核心接口,封装了生产Bean的一切原料

1.配置类 xml @注解 javaconfig
2.加载spring上下文
xml: new ClassPathXmlApplicationContext("xml");
@: new AnnotationConfigApplicationContext(config.class)
3.getBean()

扫一扫 不怀孕
